

Munyon's Soap
Which Mends
Is more soothing than Cold Cream; more healing than any lotion, liniment or salve; more beautifying than any cosmetic.
Cures dandruff and stops hair from falling out.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black-heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets." Fred C. Witten, 76 Elm St., Newark, N. J.

IGNORANT OF ART.

The Kid-Mister, Johnnie says that purple thing in front of the picture's a windmill an' I say it's a tree; which is right?
The Impressionist—That's a cow.

Fair Play.
One of the hardest things to wash is a mechanic's shirt. It accumulates dust and grime and grease, naturally, and the effort to get that dust and grime and grease out with ordinary soap is something tremendous. "Easy Task Soap," however, does half the work for you and makes the other half easier. Its duty is to get after the dirt and take it out. You don't have to rub and scrub over the tub. Tell your grocer you want it. Five cents a cake—same price as poor soaps.

Good Advice, but—
A traveler entered a railway carriage at a wayside station. The sole occupants of the compartment consisted of an old lady and her son, about twelve years old. Nothing of note occurred until the train steamed into the station at which tickets were collected. The woman, not having a ticket for the boy, requested him to "corrie down."
The traveler intervened and suggested putting him under the seat.
"Man," said the excited woman, "it's as shair as death; but there's twa under the seat already!"

A Question.
Vera (eight years old)—What does transatlantic mean, mother?
Mother—Across the Atlantic, of course; but you mustn't bother me.
Vera—Does "trans" always mean across?
Mother—I suppose it does. Now, if you don't stop bothering me with your questions I shall send you right to bed.
Vera (after a few minutes' silence)—Then does transparent mean a cross parent?—Ideas.

The Weeds Return.
"Confound these election bets, anyway!" grumbled Barker.
"Lose heavily?" inquired his friend.
"No, I won ten boxes of cigars and they were so rank I sold the whole lot to the corner tobacconist for a dollar."
"Well, you made a dollar, anyway."
"Yes, but that is not the worst of it. My wife said the boxes in the window marked 'A Bargain, \$2' and bought the whole lot to give me as a birthday present."

Bookkeeping.
"Is Bilgins a good bookkeeper?"
"He used to be. I never lend him any more."

A FOOD DRINK.

Which Brings Daily Enjoyment.
A lady doctor writes:
"Though busy hourly with my own affairs, I will not deny myself the pleasure of taking a few minutes to tell of my enjoyment daily obtained from my morning cup of Postum. It is a food beverage, not a poison like coffee."
"I began to use Postum eight years ago, not because I wanted to, but because coffee, which I dearly loved, made my nights long weary periods to be dreaded and unfitting me for business during the day."
"On the advice of a friend, I first tried Postum, making it carefully as directed on the package. As I had always used 'cream and no sugar,' I mixed my Postum so. It looked good, was clear and fragrant, and it was a pleasure to see the cream color it as my Kentucky friend always wanted her coffee to look—like a new saddle."
"Then I tasted it critically, for I had tried many 'substitutes' for coffee. I was pleased, yes, satisfied, with my Postum in taste and effect, and am yet, being a constant user of it all these years."
"I continually assure my friends and acquaintances that they will like it in place of coffee, and receive benefit from its use. I have gained weight, can sleep sound and am not nervous."
"There's a Reason."

WARLIKE PREPARATIONS IN EUROPE CAUSE ANXIETY

LONDON.—Great Britain is watching with considerable anxiety the activity of the German hawser on the little island of Bornholm, off the northwest coast of Hanover, where a new naval base has been established. It was there that two British officers were arrested recently as spies, in retaliation for which the British arrested a German officer named Helm. The German army has just acquired a new rapid firing gun that fires 600 shots per minute, and is safe and accurate. It has been approved by the emperor.

AGAINST THE HOBBLE SKIRT

Dress Designer from Paris Says It Is Horrible and Sidesteeps Women Who Wear Them.

New York.—C. Poynter Redfern of Paris, dress designer, arrived here the other day to witness the opening of his new place in this city.
Redfern said he was bringing no new designs that would thrill us, and while a number of women on board "hobbled" near him, he seemed to move aside every time a hobble skirt came along.
"Don't you like the hobble skirt?" he was asked.
"No, I do not," he replied, "although I suppose I shouldn't say anything about them. They are horrible. I never did like anything that is extreme in the dress line. Women should have freedom in dress. Those skirts are too tight."

"We are not going in for them at all. The new style will be the long waist of the Louis XV type. There is a tendency in that direction in Paris now. Mme. Cecil Sorel wore such a waist at the opera lately and created quite a sensation."
"I'm not bringing styles here because you get them just as soon as they are out."

Centenarian a Pedestrian.
Worcester, Mass.—Although two years past the century mark, Patrick Burns, the oldest man in this county, walked from his home, near Brookfield, to his son's home, on the North Brookfield road, more than ten miles, in two hours and fifty minutes. He attracted much attention and was followed by a small army of admirers.
Burns has been in the habit of taking a walk each day, but never attempted so long a walk before. Burns has voted for most of the presidents of the United States.

WEE BEETLE INJURES TREE

Entomologist Blames Boring Insect for Withering Dogwoods—Remedy Now Lacking.

Philadelphia.—Householders who have been wondering why the branches of the dogwood trees in their yards and in front of their houses were withering need wonder no longer. Scientific investigation of the entomologist of the Academy of Natural Sciences have established the fact that the trees are being destroyed by a "boring, fleshy, wormlike larva of a Buprestid beetle, a medium-sized, thick-necked insect of dull color."
This was announced by Wilmer Stone, the curator of the academy. He explained that many specimens of dogwood trees had been submitted to the entomologist and that he had examined them carefully.
The conclusion is reached that this insect is doing the damage. It is a mite of a beetle and deposits its eggs under the bark. Its color is such that it is not easily noticed, which accounts for the fact that so many persons have been puzzled over the cause of the destruction of the dogwood trees.

Ends of the slender branches of the ornamental dogwoods have withered and dropped off. When examined with the naked eye nothing was discernible. But the entomologist used the microscope and got at the root of the trouble. He was quick to blame the damage on the apparently harmless insects that multiply by the millions and that have been eating the life out of countless dogwood trees throughout the city.

Their Judgments.
A West Philadelphia man and his wife were quarreling a bit the other evening, the excuse being that the husband had been out rather late the night before. One thing led to another, and the wife found fault with her husband's judgment.

"You think everything you do is all right and that you can't make a mistake. You think I haven't any judgment at all and that I always ought to ask you what you think about things. Your judgment isn't infallible."

BIRCH LEAVES FALL

Work of Skeletonizer Moth, Says Massachusetts Forester.

Scores of Letters From Different Parts of State Inquiring as to Cause Damage Done by the Tineid Moth.

Boston.—During the last two weeks the state forester, F. W. Hane, has received scores of letters from different parts of the state, inquiring into the cause of the damage to the birch trees, the leaves of which everywhere have become yellow or brown and are dropping off. So general is the desire for information that the state forester, through the medium of the press, desires to give the public the following facts:

The insect causing the damage is known as the birch-leaf skeletonizer (bucculatrix canadensisella), one of the tineid moths. The outbreak of the insect is by no means unprecedented, as a similar condition obtained over a considerable portion of Massachusetts in 1901, also in the eastern portion of New York state.

Little is known concerning the life history and habits of the insect. The moth is small, wings expanding about three-fourths of an inch. The larvae, or caterpillars, measure less than one-quarter inch long and occur the latter part of August or early in September, feeding on the soft parenchyma of the leaf and skeletonizing it thoroughly. At this time small oval cocoons may be observed here and there on the leaves. These are spun by the caterpillar during a molt. The true cocoons are brownish yellow ribbed structures about one-fifth inch in length.

TURKEY'S DIET IS BETTER

Dr. Fenton B. Turk of Chicago Attacks Baked Beans and Pie Before Medical Association.

Detroit, Mich.—Well-cooked vegetables, rice and meat as opposed to New England mince pie and Boston baked beans, have made the "graceful, self-controlled Turk, the superior of the nervous, lank New Englander."
This was the contention put before the Mississippi Valley Medical association the other day by Dr. Fenton B. Turk of Chicago.
"Diet has more to do with the making of great men or the deteriorating of the human race to the level of the brute than anything else," declared Doctor Turk.
"Compare that armor plate mince pie diet indulged in by all America with the two same meals a day that are enabling Turkey to produce the finest specimens of physical manhood in the world. Mince pie and beans are bringing about race deterioration not alone in Connecticut and Maine."

EVERY HOUSE HAS ITS BABY

Benevolent Stork Is Busy Bird in Small Connecticut Town—Everybody Is Supplied.

Waterbury, Conn.—Terry's Bridge is a little kniffe town north of here, with less than one hundred families.
The special Sunday school service of the Union chapel was scarcely opened when one of the infant class, bursting with pride and excitement, announced to the room:
"We have got a little baby sister at our house. The doctor brought her this morning."
Another girl spoke up. "He brought one to our house, too, a little while ago."
"Yes," announced a third, with all the conviction of childhood, "he is going to bring everybody one now. Papa said we were going to have one the first time we were good a whole week."

Hard Luck.
"What did you tell that bill collector?" "That you were out" replied the office boy. "And what did he say?" "He said he was sorry, as he had given up his old job and had come around to pay a bill that his new boss owed you."

The Companion of Cooks.
Mrs. Newlyrich is fond of parading her good fortune for the benefit of some of her less fortunate neighbors with whom she still condescends to associate.
One of the neighbors whose husband has a good position is preparing to take a trip abroad with one of the Cook's tour parties.
"I suppose it will be grand," said Mrs. Newlyrich, "but I should think you'd dislike very much to be traveling for several months with a lot of domestication."

DON'T NEGLECT YOUR KIDNEYS.

Little kidney troubles gradually grow more serious and pave the way to dropsy, diabetes, and fatal Bright's disease. Begin using Doan's Kidney Pills at the first sign of trouble. They cure all kidney ills.
Mrs. J. R. Hayes, Anamosa, Iowa, says: "I suffered such awful pain I could not lie down. I was perfectly helpless for six months. My ankles were so badly swollen I could not wear my shoes. Soon after using Doan's Kidney Pills I was able to walk without crutches. I gradually improved until I ceased to bleed and the kidneys became normal."
Remember the name—Doan's. For sale by all dealers. 50 cents a box.

BABY'S SKIN TORTURE

"When our baby was seven weeks old he broke out with what we thought was heat, but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Atchison but he only got worse. His face, head and hands were a solid sore. There was no end to the suffering for him. We had to tie his little hands to keep him from scratching. He never knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours of the night and his health wasn't what you would call good. We tried everything but the right thing.
"Finally I got a set of the Cuticura Remedies and I am pleased to say we did not use all of them until he was cured. We have waited a year and a half to see if it would return but it never has and to-day his skin is clear and fair as it possibly could be."
I hope Cuticura may save some one else's little ones suffering and also their pocket-books. John Leason, 1403 Atchison St., Atchison, Kan., Oct. 19, 1909.

Love's Crime.
George was a manly fellow, yet, surprising as it may seem, he was guilty of a grave charge, a criminal offense— theft, for had he not many times, stolen kisses from his fair sweetheart?
Maude, one of the most lovable of girls, was equally guilty as an accessory; she received the stolen property. Each seemed to have perfect confidence in the other, however, and when sentence was pronounced by a properly qualified official, they decided to serve their time together.
They remained loyal to the end, neither making any effort to have their sentence abrogated or shortened, but during the course of their long term together several small offenses were directly chargeable to them— J. W. B. in Puck.

HISTORIC SADDLE IN MUSEUM

Japanese Emperor's Gift to General Grant Now in San Francisco—Presented by Son.

San Francisco.—One of the most notable donations recently received at the Memorial museum in Golden Gate park was presented to the museum the other day by U. S. Grant, Jr. It is an ancient Japanese acquired saddle, the gift of the Emperor of Japan to General U. S. Grant when the latter was making his tour of the world. The saddle, according to Curator Barron, is about four hundred years old, and was used by one of the famous Samurai warriors of four centuries ago. It will be given a conspicuous place at the museum, next to a cabinet of Japanese curios which was presented by the same Japanese emperor to President Lincoln.
The gift of the saddle is regarded by Curator Barron as a striking evidence of the interest which is being taken in the Park Memorial museum.

ATCHISON'S ORDER OF SPINS

Unmarried, and Contented Withal, They Have Mapped Out for Themselves a Pleasant City.

There was called a meeting of the Ancient Order of Spins last evening, and papers were read on every subject, from removing grease from carpets to a bunch of old letters. The Spins were having a hilarious time when a visiting Spin got up to make a few remarks. She said that, while they are happy now, there was a sad time coming. "Think of the day," she said, "when, having no husbands or children, you will be all alone." There was a snuff and then a short as Spin after Spin recalled wives and mothers who are alone from daylight till dark, except when some member of the family wants waiting on. The sniffling and snorting increased in volume as Spin after Spin told of her freedom from worry, her independence in financial matters and the joy of doing as she pleased. "But we must not take offense at what our sister has said," one Spin remarked. "Let us show our good intentions by calling on every lonesome wife and mother we know." This was six weeks ago, and though the Spins have devoted every afternoon and evening since to this missionary work, they haven't made half the rounds yet—Atchison Globe.

To Settle an Estate.

I offer 9,000 acres of grading land 14 miles from North Platte, Nebraska, at \$5.00 per acre, one third cash, balance in 5 equal annual payments with interest at 6 per cent. per annum, payable semi-annually. 4,000 acres are under good fence. Two wells and windmills with plenty of water. No other improvements. Alfalfa is doing well on similar land in the vicinity. An exceptional opportunity for one who is looking for a large grazing tract convenient to a good shipping point. For further particulars address Henry F. Wyman, 505 Brown block, Omaha, Neb.

Woman-Like.

"I hate him! I think he is the meanest man I ever met."
"Gracious, Jeanette! What is the trouble?"
"Why, he told me he loved me devotedly and I told him it would be impossible for me to love him in return. The poor fellow looked so downhearted I told him to try and forget me."

Something About Chinaware.

Every woman is proud of her china, and wants to keep it looking new and perfect. So often she will use the wrong kind of soap on it and injure it in appearance—make it look worn and cheap. "Easy Task Soap"—the hard, white, pure laundry soap—is the only kind to use on china. Not only does it clean china quickly and safely, but its antiseptic qualities sterilize the china. In these days of germ-caused diseases this is an important point.

No Help Needed.

A little miss of five years who had been allowed to stay up for an evening party, was told about 8:30 to go to bed. Very, very slowly she moved toward the stairs. An aunt, seeing her reluctance, asked:
"Helen, can I do anything to help you?"
"No," replied Helen, "I will get there altogether too soon as it is."

Illiterate Immigrants.

Ellis Island records show that of 52,727 immigrants who arrived here in July 1909, or about 25 per cent., are illiterates. Illiteracy is no bar to an immigrant so long as he appears physically able to care for himself. Only 1,127 persons who sought to enter the country were barred at this port last month.—New York Press.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Galena, Kans.—"A year ago last March I fell, and a few days after there was soreness in my right side. In a short time a lump came and it bothered me so much at night I could not sleep. It kept growing larger and by fall it was as large as a hen's egg. I could not go to bed without a hot water bottle applied to that side. I had one of the best doctors in Kansas and he told my husband that I would have to be operated on as it was something like a tumor caused by a rupture. I wrote to you for advice and you told me not to get discouraged but to take Lydia E. Pinkham's Vegetable Compound. I did take it and soon the lump in my side broke and passed away."—Mrs. R. R. Huxy, 718 Mineral Ave., Galena, Kans.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to many suffering women.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.
